

## Campbell Canada Gluten-Free Products

Gluten is a protein found in rye, barley and wheat (including atta, bulgur, couscous, durum, einkorn, emmer, farina, kamut, seitan, semolina, spelt, triticale). Due to the potential mixing of grains during harvest, storage, transportation, etc., Campbell has decided to treat oats similar to gluten containing grains.

Campbell Gluten-Free products are validated through an extensive on-going test program which includes the testing of products and placement of manufacturing controls to insure our Gluten-Free products are and remain Gluten-Free. The following list contains products in which every ingredient in each product was verified as being Gluten-Free.

We will continue to test new products and will update our list accordingly.

Please visit us at [www.campbellsoup.ca/en-ca/eating-well/gluten-free](http://www.campbellsoup.ca/en-ca/eating-well/gluten-free) for more information and the most up to date gluten-free list.

*Because we are constantly improving our products, please check the ingredient statement on the label of every product. We will make every effort to keep this list up-to-date.*
